Snow Removal Policy

Policy No. 400-5

January 5, 2022

Subject:	Snow Removal Policy
Type:	Transportation
Authority:	Approved by Council: January 5, 2022

Snow Removal Policy

PURPOSE:

The purpose of this policy is to establish the effective and efficient provision of Snow Removal allowing the municipality to function under normal winter weather conditions. This outlines a clear statement of the intent of municipal snow removal operations and establish a framework for the priorities within which resources will be applied.

OPERATIONAL PROCEDURES:

1. Snow Removal priorities are subject to change based on circumstances surrounding a particular snow fall at management’s discretion. Snow Removal priorities following the end of a typical snow event shall be as follows in Schedule “A”

Priority One: Yellow Area

Main transportation routes, emergency vehicle access

Priority Two:

The timing of all other routes to be cleared will be determined by Management.

2. Snow Removal for sidewalks that are adjacent to municipal owned property, pathways, boulevards and Municipal Facilities will be undertaken by the Town through the Public Works Department.

3. Back Alleys will not be cleared until all municipal streets, sidewalks that are adjacent to municipal property, pathways and Municipal Facilities have been completed and then only alleys where residents need access to rear garages will be scheduled.
